Application Guidelines

- The Direct Aid Program (DAP) is available to individuals, community groups and NGOs engaged in development activities in designated countries on a not-for-profit basis.
- DAP is primarily aimed at supporting small-scale development projects/activities that are participatory in nature and have involved beneficiaries in their identification, design and management.
- Special attention will be given to gender issues, children and other disadvantaged groups.
- Eligible activities would normally be implemented over a relatively short period of time and of not more than one year.
- Examples of areas where grants may be given are: community health, education, small scale infrastructure, rural development, and environment.
- In certain cases, consideration may be given to contributions to disaster relief operations, activities of cultural significance and sporting equipment.
- As a general rule, the following activities and inputs will **not** be funded: conferences in-country; Australia or overseas study tours; academic training in Australia; items of a recurrent nature, such as staff salaries, office rental and utility costs, spare parts, supplies, routine maintenance and repairs; and payment of consultants and advisors.
